

### REMARKS

A *Continued Prosecution Application* is filed together with this preliminary amendment. Claims 1-30 were pending in present application prior to the above amendment. Claims 8, 13, 14, 22, 27 and 28 have been amended and new claims 31-40 have been added.

A *Notice of Allowance* was mailed in this application on June 29, 1999, allowing claims 1-30. Claims 8, 13, 14, 22, 27 and 28 are amended herewith to contain the claimed electron and hole mobilities to that disclosed in the specification. Specifically, the electron mobility is changed from 15-100 cm<sup>2</sup>/V sec to 15-300 cm<sup>2</sup>/V sec as disclosed in, for example, column 7, line 33. Similarly, the hole mobility is changed from 10-100 cm<sup>2</sup>/V sec to 10-200 cm<sup>2</sup>/V sec as disclosed, for example, in column 7, line 32. These claims are believed to be in condition for allowance for the same reasons previously asserted.

New claims 31-40 are added to complete the scope of protection to which applicant is entitled.

Therefore, in view of the foregoing, it is respectfully requested that the present application be considered in formal condition for allowance, that claims 1-40 be allowed and that the application be passed to issue.

Should the Examiner believe a conference would be of benefit in expediting the prosecution of the instant application, he is hereby invited to telephone council to arrange such a conference.

Respectfully submitted,

---
